ABSTRACT

This report provides a comprehensive summary of the place of class attendance for students of Nova Southeastern University. Nova Southeastern University's main campus is located in Davie, Florida, and there are additional campus facilities at other locations in two Florida counties, as well as a variety of distance education modalities that offer instruction in Florida, 22 other states, and 9 foreign countries. The report offers breakout statistics for all clusters and sites in Florida and collapsed enrollment statistics for other states and foreign countries. In addition, comparisons are made with enrollment figures for the 1995 calendar year. In terms of class attendance, South Florida was the geographic area where the University had the greatest increase in enrollment, and most of this gain was in Broward County. The Health Professions Division had the largest absolute gain and the largest percentage gain in Broward County during this time period, with the Broward County enrollment in this division increasing by 58% between 1995 and 1999. There was also a large increase in the enrollment of the University's Graduate School of Education. Awareness of these trends can aid the University in planning for future students and the development of programs. (SLD)

PLACE OF CLASS ATTENDANCE AT NOVA SOUTHEASTERN UNIVERSITY: CALENDAR YEARS 1995 TO 1999

Thomas W. MacFarland **Senior Research Associate**
Report 00-23 **November 2000**

EXECUTIVE SUMMARY

Nova Southeastern University's main campus is located in Davie, Florida, and the University has additional campus facilities at other locations in Broward County and Miami-Dade County. In addition to the instructional activities that are provided for campus-based students, the University also uses a variety of distance education modalities to offer instruction at sites throughout Florida, 22 other states, and 9 foreign nations.

In an effort to provide useful information that supports the University's planning process, Research and Planning has published a set of reports that address calendar year enrollment statistics and place of class attendance. Research and Planning also regularly prepares term-related enrollment statistics reported in the Weekly Enrollment Report and annual Integrated Postsecondary Education Data System (IPEDS) surveys. The purpose of this study was to continue with this reporting process and to provide a comprehensive summary of place of class attendance statistics for Calendar Year 1995 to Calendar Year 1999. This summary report offers breakout statistics for all clusters and sites in Florida and collapsed enrollment statistics for other states and foreign nations.

On an annual basis, Research and Planning works with the University's Computing Center to prepare the extract files used for this report. Files are prepared each year in mid- to late-December and these extract files are made static once there is agreement on content and structure. SPSS-X™ was used to conduct the many separate breakout analyses associated with this study.

A set of tables on enrollment and place of class attendance for Calendar Year 1995 to Calendar Year 1999 is attached to this report. In terms of overall changes in enrollment for instruction at all class locations, the University's enrollment grew by 15 percent between Calendar Year 1995 (N = 22,221 students) and Calendar Year 1999 (N = 25,618):

- The Fischler Graduate School of Education and Human Services had the largest absolute growth during this time period, with a gain of 1,871 students between Calendar Year 1995 (7,155 students) and Calendar Year 1999 (9,026).

- The Health Professions Division had the largest percentage gain during this time period, growing by 57 percent between Calendar Year 1995 (2,074 students) and Calendar Year 1999 (3,265).

In terms of place of class attendance, South Florida was the geographic area where the University had the greatest increase in enrollment and most of this gain was in Broward County.

- The Health Professions Division had both the largest absolute gain and also the largest percentage gain in Broward County during this time period, with its Broward County enrollment growing by 58 percent between Calendar Year 1995 (2,039 students) and Calendar Year 1999 (3,224), for a net increase of 1,185 students in Broward County.

- The Fischler Graduate School of Education and Human Services also had exceptionally large absolute and percentage growth in Broward County during this time period, with its Broward County enrollment growing by 41 percent between Calendar Year 1995 (2,075 students) and Calendar Year 1999 (2,931), for a net increase of 856 students in Broward County.

Indeed, these two academic centers accounted for nearly 70 percent of all growth in enrollment in Broward County between Calendar Year 1995 and Calendar Year 1999. The Health Professions Division contributed to nearly 40 percent of all enrollment growth in Broward County and the Fischler Graduate School of Education and Human Services contributed to nearly 30 percent of all enrollment growth in Broward County.

It is essential that the University consider the long-term outcomes of present and future shifts in place of class attendance. The University is experiencing a fairly large increase in the number of students attending class on or near the main campus in Broward County, especially in the Health Professions Division and the Fischler Graduate School of Education and Human Services. Attention to this type of change is essential if the University is to develop and maintain the campus-based and distributed learning infrastructure expected of a Carnegie Classification Doctoral I university.

It may also be useful for academic center deans and program directors to review the enrollment statistics for the many clusters and sites presented in this report and other internal sources of information on enrollment. Careful attention to coding and the need for accuracy in reporting on enrollment can only help the University understand student trends and the need to plan for these trends in a prudent and proactive manner.

INTRODUCTION

Background

Nova Southeastern University's main campus is located in Davie, Florida, and the University has additional campus facilities in Fort Lauderdale (East Campus) and Dania (Oceanographic Center Campus). These facilities are located in Broward County and the University also has an extensive facility in Miami-Dade County at the North Miami Beach Campus (*Nova Southeastern University Fact Book*; 2000, p. 23). In addition to the instructional activities that are provided for campus-based students, the University also offers instruction at sites throughout Florida, 22 other states, and 9 foreign nations (*Directory of Off-Campus Classes*; 2000).

Purpose of This Study

In an effort to provide useful information that supports the University's planning process, Research and Planning has published a set of reports that address calendar year enrollment statistics and place of class attendance (*Place of Class Attendance at Nova Southeastern University: Calendar Years 1990 to 1994*, 1996; *Place of Class Attendance and Permanent Residence of Nova Southeastern University Students During Calendar Year 1998*, 1999). Research and Planning also regularly prepares term-related enrollment statistics reported in the Weekly Enrollment Report and annual Integrated Postsecondary Education Data System (IPEDS) surveys (*Integrated Postsecondary Education Data System Fall Enrollment Survey (For 4-Year Institutions) 1999, Form IPEDS-EF-1*; 1999). Updated enrollment statistics are published yearly in the University's Fact Book.

The purpose of this study was to continue with this reporting process and to provide a comprehensive summary of place of class attendance statistics for Calendar Year 1995 to Calendar Year 1999. This summary report offers breakout statistics for all clusters and sites in Florida and collapsed enrollment statistics for other states and foreign nations.

METHODOLOGY

On an annual basis, Research and Planning works with the University's Computing Center to prepare the extract files used for this report. Files are prepared each year in mid- to late-December and these extract files are made static once there is agreement on content and structure. SPSS-X™ was used to conduct the many separate breakout analyses associated with this study.

RESULTS

A set of tables on enrollment and place of class attendance for Calendar Year 1995 to Calendar Year 1999 is attached to this report (Table 1 to Table 2.F). These tables offer greater detail than Research and Planning is able to publish in *Nova Southeastern University Fact Book* (2000, pp. 52-53).

In terms of place of class attendance, South Florida was the geographic area where the University had the greatest increase in enrollment and most of this gain was in Broward County.

Nova Southeastern University Calendar Year Enrollment by Place of Class Attendance: CY 1995 to CY 1999

	1995		1999		Change: 1995 to 1999	
	N	%	N	%	N	%
South Florida						
Broward County	11,870	53	14,807	58	2,937	25
Miami-Dade County	2,074	9	2,326	9	252	12
Palm Beach County	702	3	651	3	-51	-7
Subtotal	14,646	66	17,784	69	3,138	21
Other Florida Locations	3,596	16	3,391	13	-205	-6
Florida	18,242	82	21,175	83	2,933	16
Other States	2,663	12	2,584	10	-79	-3
International Locations	1,167	5	1,110	4	-57	-5
TOTAL	22,221		25,618		3,397	15

- The Health Professions Division had both the largest absolute gain and also the largest percentage gain in Broward County during this time period, with its Broward County enrollment growing by 58 percent between Calendar Year 1995 (2,039 students) and Calendar Year 1999 (3,224), for a net increase of 1,185 students in Broward County.

- The Fischler Graduate School of Education and Human Services also had exceptionally large absolute and percentage growth in Broward County during this time period, with its Broward County enrollment growing by 41 percent between

Calendar Year 1995 (2,075 students) and Calendar Year 1999 (2,931), for a net increase of 856 students in Broward County.

- Indeed, these two academic centers accounted for nearly 70 percent of all growth in enrollment in Broward County between Calendar Year 1995 and Calendar Year 1999.
  - Health Professions Division Broward County growth between Calendar Year 1995 and Calendar Year equaled 1,185 students out of a total increase of 2,937 students in Broward County, or 40 percent of all enrollment growth in Broward County.
  - Fischler Graduate School of Education and Human Services Broward County growth between Calendar Year 1995 and Calendar Year equaled 856 students out of a total increase of 2,937 students in Broward County, or 29 percent of all enrollment growth in Broward County.

In terms of overall changes in enrollment for instruction at all class locations, the University's enrollment grew by 15 percent between Calendar Year 1995 (N = 22,221 students) and Calendar Year 1999 (N = 25,618):

- The Fischler Graduate School of Education and Human Services had the largest absolute growth during this time period, with a gain of 1,871 students between Calendar Year 1995 (7,155 students) and Calendar Year 1999 (9,026).
- The Health Professions Division had the largest percentage gain during this time period, growing by 57 percent between Calendar Year 1995 (2,074 students) and Calendar Year 1999 (3,265).
- Enrollment changes in the other academic centers from Calendar Year 1995 to Calendar Year 1999 ranged from an increase of 393 students in the School of Computer and Information Sciences to a decrease of 361 students in Center for Psychological Studies.

SUMMARY

The University has experienced a 15 percent increase in calendar year enrollment from Calendar Year 1995 (CY 1995 N = 22,221 students) to Calendar Year 1999 (CY 1999 N = 25,618). However, this growth does not follow a straight line and there is instead there is a fair degree of variance in this growth on an annual basis:

Nova Southeastern University Calendar Year Enrollment: CY 1995 to CY 1999			
Period	**Enrollment**	**% Annual Change**	**% Change from CY 1995**
CY 1995	22,221		
CY 1996	22,732	2.3	2.3
CY 1997	24,828	9.2	11.7
CY 1998	25,143	1.3	13.1
CY 1999	25,618	1.9	15.3

Between Calendar Year 1995 and Calendar Year 1999, the University has experienced a 25 percent increase in enrollment in Broward County and a 12 percent increase in Miami-Dade County. Enrollment has declined by 7 percent in Palm Beach County, by 6 percent at other Florida locations, by 3 percent at other states, and by 5 percent at international locations.

It is essential that the University consider the long-term outcomes of present and future shifts in place of class attendance. Currently, there seems to be a fairly large increase in the number of students attending class on or near the main campus in Broward County, especially in the Health Professions Division and the Fischler Graduate School of Education and Human Services. Attention to this type of change is essential if the University is to develop and maintain the campus-based and distributed learning infrastructure expected of a Carnegie Classification Doctoral I university.

It may also be useful for academic center deans and program directors to review the enrollment statistics for the many clusters and sites presented in this report and other internal sources of information on enrollment. Careful attention to coding and the need for accuracy in reporting on enrollment can only help the University understand student trends and the need to plan for these trends in a prudent and proactive manner.

REPRODUCTION RELEASE

(Specific Document)

I. DOCUMENT IDENTIFICATION:

Title: Place of Class Attendance at Nova Southeastern University: Calendar Years 1995 to 1999	
Author(s): Dr. Thomas W. MacFarland	
Corporate Source: Nova Southeastern University	Publication Date: November 2000

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, *Resources in Education* (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic media, and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following three options and sign at the bottom of the page.

The sample sticker shown below will be affixed to all Level 1 documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

1

Level 1

☑

Check here for Level 1 release, permitting reproduction and dissemination in microfiche or other ERIC archival media (e.g., electronic) *and* paper copy.

The sample sticker shown below will be affixed to all Level 2A documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN MICROFICHE AND IN ELECTRONIC MEDIA FOR ERIC COLLECTION SUBSCRIBERS ONLY, HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

2A

Level 2A

☐

Check here for Level 2A release, permitting reproduction and dissemination in microfiche and in electronic media for ERIC archival collection subscribers only

The sample sticker shown below will be affixed to all Level 2B documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN MICROFICHE ONLY HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

2B

Level 2B

☐

Check here for Level 2B release, permitting reproduction and dissemination in microfiche only

Documents will be processed as indicated provided reproduction quality permits.
If permission to reproduce is granted, but no box is checked, documents will be processed at Level 1.

I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries.

III. DOCUMENT AVAILABILITY INFORMATION (FROM NON-ERIC SOURCE):

If permission to reproduce is not granted to ERIC, *or*, if you wish ERIC to cite the availability of the document from another source, please provide the following information regarding the availability of the document. (ERIC will not announce a document unless it is publicly available, and a dependable source can be specified. Contributors should also be aware that ERIC selection criteria are significantly more stringent for documents that cannot be made available through EDRS.)
